Special Issue: Comparing Actual Evapotranspiration from Satellite Data, Hydrological Models and Field Data

Preface . . . 1

Comparing evapotranspiration estimates from satellites, hydrological models and field data
G.W. Kite and P. Droogers . . . 3

Estimation methods for crop water requirements in the Gediz Basin of western Turkey
M. Beyazgül, Y. Kayam and F. Engelsman . . . 19

Using the FAO-56 dual crop coefficient method over an irrigated region as part of an evapotranspiration intercomparison study
R.G. Allen . . . 27

The sensible heat fluxes over irrigated areas in western Turkey determined with a large aperture scintillometer
W.M.L. Meijninger and H.A.R. de Bruin . . . 42

Estimating actual evapotranspiration using a detailed agro-hydrological model
P. Droogers . . . 50

Using a basin-scale hydrological model to estimate crop transpiration and soil evaporation
G. Kite . . . 59

Satellite-derived estimates of evapotranspiration in the Gediz basin
R.J. Granger . . . 70

Seasonal and interannual variations of total evaporation and their relations with precipitation, net radiation, and net carbon accumulation for the Gediz basin area
B.J. Choudhury . . . 77

SEBAL-based sensible and latent heat fluxes in the irrigated Gediz Basin, Turkey
W.G.M. Bastiaanssen . . . 87

Vol. 229 Nos. 3–4 **April 17 2000**

Research papers

Approximate analytic solutions to 3D unconfined groundwater flow within regional 2D models
K. Luther and H.M. Haitjema . . . 101

The effect of three fire regimes on stream water quality, water yield and export coefficients in a tropical savanna (northern Australia)
S.A. Townsend and M.M. Douglas . . . 118

Acquisition of water chemistry in a mobile fissured basement massif: its role in the hydrogeological knowledge of the La Clapière landslide (Mercantour massif, southern Alps, France)
Y. Guglielmi, C. Bertrand, F. Compagnon, J.P. Follacci and J. Mudry . . . 138

Estimating parameters for a dual-porosity model to describe non-equilibrium, reactive transport in a fine-textured soil
R.C. Schwartz, A.S.R. Juo and K.J. McInnes . . . 149

Integrated assessment of phosphorus in the Lake Hayes catchment, South Island, New Zealand
B.S. Caruso . . . 168

Use of hydrologic time series data for identification of recharge mechanism in a fractured bedrock aquifer system
J.-Y. Lee and K.-K. Lee . . . 190

Modelling suspended sediment deposition on a fluvial floodplain using a two-dimensional dynamic finite element model
R.J. Hardy, P.D. Bates and M.G. Anderson . . . 202

Regional analysis of annual maximum and partial duration flood data by nonparametric and L-moment methods
K. Adamowski . . . 219

Simulated effect of vadose infiltration on water levels in the Northern Guam Lens Aquifer
D.N. Contractor and J.W. Jenson . . . 232

Flow-variation-paced sampling: a method for automatic sampling of streamflow during peak runoff periods
E. Lopez, B. Soto, D. Rubinos and F. Diaz-Fierros . . . 255

Simulating groundwater flow and runoff for the Oro Moraine aquifer system. Part I. Model formulation and conceptual analysis
J. Beckers and E.O. Frind 265

Technical Note

The limited role of localized convective storms in runoff production in the western Negev Desert
G.J. Kidron and K. Pick 281

Discussions

Comment on 'Mixed convection processes below a saline disposal basin' by Simmons, C.T., Narayan K.A.
E. Holzbecher 290

Response to the comment on 'Mixed convection processes below a saline disposal basin' (Simmons, C.T., Narayan, K.A.) by E. Holzbecher
C.T. Simmons, K.A. Narayan and J.M. Sharp Jr 296
